NAVAL BALLOON BLOWN TO ATOMS

Explosion Wrecks Dirigible C-8
Just After Landing Near
City of Baltimore.

BURSTS INTO FLAMES

Seventy-five Persons, Mostly Women
and Children, Are Burned or
Otherwise Seriously Injured

by Flying Fragments.
Baltimore, July 2.—The large naval dirigible C-8, commanded by Lieut. N. J. Learned, with a crew of six men and two passengers, bound from Cape May, N. J., to Washington, exploded with great force just after landing at Camp Holabird near this city, to add just rudder trouble.

The explosion shook the cantonment and the eastern section of the city. The balloon instantly burst into flames. Shooting flames and bits of blazing fragments scattered over the crowd of nearly 200 persons, many of whom were blown partly across the field.

Blamed to Rapid Gas Expansion.
Seventy-five persons, mostly women and children, were burned or otherwise injured. None of the officers or crew of the C-8 was hurt. They were at work on the disabled rudder when the explosion occurred. According to the commander, the explosion is believed to have been due to rapid expansion caused by heat. The bag contained more gas than was required, after descending from a colder altitude.

Some of the persons, including Camp Holabird men, who were near the dirigible were blown 20 or 30 feet by the concussion. Houses a mile away were shaken and windows broken. The air was filled with gas fumes. The home of Mr. and Mrs. Samuel Pank, half a mile from the scene, looked like a tornado had struck it. Door and window frames were twisted. Window panes were broken. There were burned marks all over the house. Mrs. Pank who was on the second floor, was severely injured.

20 Kept in Hospital.
Relief was organized immediately from the Camp Holabird hospital and 60 persons went there to have their wounds dressed, about 20 being burned seriously enough to remain in the institution. Joseph Stack, 14 years old, and Joseph Kudak, 13 years old, who were burned about the face and body, figured in one of the freakish effects of the explosion. They were driving near the balloon in a cart behind a pony. The explosion blew them out of their cart and threw them some distance. It threw the pony to the earth violently. The pony was burned about the body.

Navy Orders Investigation.
Washington, July 2.—Navy court inquiry will be convened. It was announced at the Navy department, to determine, if possible, the cause of the C-8 explosion, and to prevent similar future accidents.

SENDS WARNING TO RUSSIA

United States Will Resist Mistreatment of Americans.

Washington, July 2.—The Russian soviet government was warned by the United States, in a message sent through the American legation at Stockholm, that reprisals against American citizens in Russia would arouse intense sentiment in the United States against the soviet heads.

The warning was contained in a cablegram sent by Acting Secretary of State Phillips.

KILLS FAMILY AND HIMSELF

Former Minnesota Guard Officer Becomes Suddenly Insane.

Portland, Ore., July 2.—R. W. Stafford, Jr., formerly of Barnum, Minn., a former captain in the Minnesota National guard, killed his year-old baby, Richard, with a hatchet at his home here, wounded his wife and five-year-old son, Wirt, probably fatally, set fire to the residence and then killed himself. Temporary insanity was given as the probable motive by the police after an investigation.

WARSHIPS TO MEET WILSON

Secretaries Daniels and Baker May Go on Flagship.

Washington, July 2.—Tentative plans for the welcoming of President Wilson at New York provide for part of the Atlantic fleet to meet the George Washington at sea and escort her into port. The welcoming committee will be aboard the Pennsylvania, Admiral Wilson's flagship.

Secretaries Daniels and Baker are expected to be among officials who will greet the President.

Dry Decree for Illinois.

Springfield, Ill., July 2.—In a formal statement issued, Attorney General Brundage held that the ruling of Attorney General Palmer does not affect Illinois, and that the sale of all beer and wines is prohibited in Illinois.

GEORGE J. GOULD
Will Appeal From Decision
Ousting Him as Executor.

Appeal from the court decision ousting George J. Gould as executor and trustee of the family's \$50,000,000 estate will be taken immediately. It was announced by John B. Stanchfield, counsel associated with Mr. Gould's attorneys.

FAVORS 8-HOUR DAY

Canadian Industrial Commission
Submits Report.

Body Was Created to Investigate Causes of Unrest as an Aftermath of the War.

Ottawa, July 2.—Unqualified approval of the right of workers to organize, the principle of collective bargaining and an eight-hour working day, coupled with far-reaching recommendations as to changes in Canada's industrial system, are included in the majority report of the commission on industrial relations which was presented to the house of commons.

The commission was appointed to investigate the causes of the industrial unrest which spread through Canada as an aftermath of the war and to make suggestions for a permanent improvement in relations between employers and employees.

The principal recommendations made in the majority report are: Legislation for a maximum work day of eight hours, with a weekly rest of not less than 24 hours; minimum wage, especially for women, girls and unskilled labor; government action to relieve unemployment through public works; government aid in the building workers' homes; restoration of the fullest liberty of speech and press and the establishment of a bureau for the promoting of industrial councils to bring employers and workers together.

KELLER GOES TO CONGRESS

Defeats Cummins and O'Brien in Contest at St. Paul.

St. Paul, July 2.—The election of Oscar Keller, independent Republican, to congress from the Fourth Minnesota district, was assured in returns received from all but two of the 140 precincts in the district, which embraces St. Paul and a small adjoining rural district. Keller led Carl W. Cummins, nominated by the Republican convention. With two precincts missing the vote was Keller, 9,278; Cummins, 7,837; O'Brien, 5,509.

The seat was made vacant by the death last spring of Representative Carl C. Van Dyke, Democrat.

STARTS ACROSS ATLANTIC

British Dirigible Has American Naval Officer on Board.

East Fortune, Scotland, July 2.—The dirigible R-34 has started on its voyage to America.

Prior to the start of the trans-Atlantic flight, Lieut. Commander Zachary Lansdowne, of the United States navy, on board at the invitation of the British admiralty, said:

"There is no doubt whatever in my mind, or, I believe, in the minds of any of the crew, that we will get over without difficulty."

Boston Elevated Raises Fares.

Boston, July 2.—A 10-cent car fare will be established by the Boston Elevated Railway company July 10, the public trustees of the road have announced. The present rate is 8 cents.

Deportation Held Impossible.

Washington, July 2.—Secretary Wilson wrote Senator King, Democrat, Utah, that there was no law under which L. C. A. K. Martens and other aliens of the Russian soviet bureau at New York could be deported.

Independent Labor Candidate Elected

(By United Press)

St. Paul, July 2.—Oscar E. Keller, independent labor candidate, was elected to congress from St. Paul on Tuesday to succeed the late Congressman C. C. Vandyke, who died shortly after the special session opened at Washington. Keller ran more than 3000 ahead of his nearest opponent, Carl Cummins, republican. R. D. O'Brien was nearly 2000 behind Cummins. Carlgren, socialist, got only a handful of votes.

Keller in his platform stands for the immediate ratification of the peace treaty and league of nations.

Townley Told Witness He Was "Boss"

(By United Press)

Jackson, Minn., July 2.—M. F. Tieggen was the first witness to take the stand today in the trial of A. G. Townley and Joseph Gilbert. He was formerly employed by Mr. Townley he said. He testified that in making a contract with Townley the latter made it plain that he was "boss." The court ruled that this reference should be stricken out.

Telegraphers Strike is Called Off

(By United Press)

Chicago, July 2.—The Commercial Telegraphers strike affecting the Postal, Western Union and affiliated companies was called off today. The railroad telegraphers sympathetic strike in which they refused to handle commercial messages was called off yesterday.

Iowa Tenth State to Ratify Suffrage Amendment

(By United Press)

Des Moines, Iowa, July 2.—The Iowa legislature today ratified the federal suffrage amendment. It's the tenth state.

Stand By Allies In Carrying Out Treaty Says Gen. Pershing

(By United Press)

Paris, July 2.—"Our flag is here, our work is here, our honor is here. The world must understand that we will stand by the allies in seeing that the peace treaty is carried out." This declaration was made today by General Pershing in connection with the announcement of plans for returning American regular army divisions now serving in Germany. The force will gradually be reduced to about six thousand.

Big Dirigible Runs Into Fog

(By United Press)

London, July 2.—Shortly after noon the admiralty received a wireless from the dirigible R-34 saying she had encountered a heavy fog four hundred and thirty miles out from her starting point, and was reducing her speed to thirty-two knots.

Germany Threatened With New Revolution

(By United Press)

London, July 2.—An Exchange Telegraph dispatch from Copenhagen reports Germany is threatened with a new revolution.

Appoint Committee to Execute Peace Treaty

BY FRED S. FERGUSON,
(United Press Staff Correspondent)

Paris, July 2.—The big five was scheduled today to appoint the committee which will direct the execution of the peace treaty. The body was also expected to consider the personnel of the permanent reparations committee and the committee on Bulgarian boundary.

British Dirigible R-34 Starts Trip to America

(By United Press)

London, July 2.—Bowling along at a speed of forty knots an hour or better the huge British dirigible airship R-34 was several hundred miles out on her way to America from East Fortune, Scotland, at eight o'clock this morning, New York time. She wirelessed her position at that time as north latitude 55.7 and west longitude 14.50. The message said that "all well."

The dirigible is the largest in the world, carrying a wireless capable of talking seventeen hundred miles away. Her lower deck is nearly an eighth of a mile long, and on top of the gas bag is a gun platform carrying a two pounder. Up to three a. m. New York time, the ship had averaged about forty-five knots an hour. She was slowing up slightly presumably because of head wind.

Hogs Hit Highest Mark in History

(By United Press)

St. Paul, July 2.—Hogs reached the highest mark in the history of the market here today when an extreme top of \$21 was recorded. Other western markets were about \$1 higher.

IN DISPUTE WITH CARRANZA

U. S. Government Involved Over Question of Oil Wells.

Washington, July 2.—Administration and Carranza now are involved in dispute over the action of the latter in prohibiting Americans from drilling oil wells in their own land. The state department protested on April 2, but Carranza did not reply until shortly after American intervention at Juarez, when he said that Americans must comply with Mexican laws. He now has sent troops into the oil district to forcibly prevent oil well drillings by Americans.

Monument for Sailor Dead.

Madrid, July 2.—Work has been commenced on a monument to be erected here in memory of Spanish sailors killed at Santiago, Cuba, and Cavite, Philippine islands, during the Spanish-American war.

PRINCE JOACHIM
Former Kaiser's Youngest
Son Buys Swiss Estate.

It is reported from Lugano that Prince Joachim, the youngest son of the former German emperor, has purchased a villa on the border of Lake Lugano known as Favorita Castagnola.

EVIDENCE IS SOUGHT

Federal Agents Watching New
York Hotels and Cafes.

Beers and Light Wines Containing
2.75 Per Cent Alcohol Are
Sold in Some Places.

New York, July 2.—Federal officials are obtaining evidence against those of the 6,000 New York saloonkeepers, hotel and cafe owners, who are selling 2.75 per cent beer and light wines, in contravention of the wartime prohibition law.

The action was taken following the statement of Attorney General Palmer that sale of 2.75 per cent beer is not authorized.

"Dealers selling beverages containing more than one half of one per cent alcohol are liable to arrest," said B. F. Matthews, assistant United States district attorney.

While no arrests are being made, pending disposition of test cases, evidence is being secured against every dealer selling anything in violation of the law.

Department of justice officials said that several complaints had been received from citizens that hard liquor was being sold.

GIVES \$30,000 TO CHARITY

Tex Rickard Pays Money to Ohio
Boxing Commission.

Toledo, Ohio, July 2.—Toledo's charities were enriched by \$30,000 when Tex Rickard, promoter of the Willard-Dempsey heavyweight championship contest here Friday, turned over this amount to C. F. Wall, chairman of the Toledo boxing commission and Director of Public Safety. The money represents the first payment of seven per cent of the gross gate receipts promised to Toledo's charities.

Later, more money is due the charity fund.

FORMER KAISER PAYS TAXES

Wilhelm Assessed for First Time in
His Life.

Amerongen, July 2.—The former German emperor, for the first time in his life, has paid taxes, the municipality of Amerongen having levied the ordinary taxation after examining and estimating William Hohenzollern's fortune. For the first three months of this year the sum levied amounts to \$4,800.

This sum was merely for local taxation. An income tax will be levied separately by the government.

All foreigners who remain three months in the country are liable for the payment of taxes, the same as natives of Holland.

Soap Brings War Medal.

Chicago, July 2.—Mrs. Leonie Torfa during the war made more than 2,500 cakes of home made soap and sent them to hospitals in France. Today she is in possession of the Medal of Queen Elizabeth awarded by the king of Belgium for patriotic work. Previously she received letters of appreciation from the Daughters of the British Empire in Canada, the American Fund for French Wounded, the Daughters of the British Empire in England, and many hospitals.

LIQUOR STATUS IS CONFUSING

Eleventh Hour Exemption of
Wine and Beer Causes
Misunderstandings.

MINNESOTA BONE DRY

State Law Prohibits Even Beer of
Low Alcoholic Contents—Dealers
in United States Sell at
Their Own Risk.

Baltimore, July 2.—Judge John C. Rose of the United States District court has sustained the demurrer of the Standard Brewing company of this city to the indictment in the manufacture of 2.75 per cent beer. The decision may mean continuation of the sale of 2.75 per cent beer as Attorney General A. M. Palmer stated it would rest on the Baltimore case. This decision is on the one-half of one per cent beer, but it virtually means 2.75 per cent beer, as Judge Rose has put it up to the government to say what is intoxicating and what not.

Washington, July 2.—The federal department of justice has announced that it will make no move to prosecute sellers of light wines and beer containing not more than 2 3/4 per cent of alcohol, pending a final decision by the United States courts or congress on what intoxicating liquor is, but on the other hand the same department announces that those who sell such wine or beer are in danger of arrest and prosecution. The only way to harmonize these statements, Washington dispatches indicate, is to interpret them as warning to sellers of light wines or beer that they do so at their own risk and will be liable to prosecution hereafter for what they do now, if it is decided later that their acts are unlawful. Wartime prohibition will continue until President Wilson decides that demobilization of National Guard and National Army troops is completed. Some have estimated that the troops will be demobilized by Aug. 1, and others not until October. The president stated Saturday night that he would act as soon as he had the power. If he should revoke the wartime lid, the sale of all kinds of liquor would be allowed, except in prohibited states and districts, until Jan. 16, 1920, when the national prohibition amendment will take effect. Even then the question will arise as to what intoxicating liquor is, unless decided in the meantime.

Minnesota Bone Dry.

Minnesota is bone dry under the state prohibition law.

No beverages with more than half of 1 per cent of alcohol may legally be made or sold in the state. The penalty for a first violation of the law is a fine of \$100 to \$500. For subsequent offenses the penalty is a fine and imprisonment, from 30 days to six months.

The state law is in effect permanently, unless it is suspended for a time by suspension of the federal wartime prohibition law, before the federal prohibition goes into effect, Jan. 16, 1920.

All saloon licenses are void under the law, but saloons may remain open to sell soft drinks. They must have licenses from the state hotel inspector as refreshment places, costing \$3.50 a year.

All liquor found on the premises where illegal sales are made is to be confiscated.

Persistent violators may be tied up by injunction proceedings, after the place is declared a nuisance by the court. The premises may be closed unless the owner files a bond to guarantee that they will not be misused. Violators of an injunction are punished for contempt of court.

Transportation of liquor from place to place is forbidden by the law. The law does not provide for search of private residences, or for search and seizure anywhere without a warrant.

TURK ENVOYS TO DEPART

Will Take Leave of France Within
Few Days.

Paris, July 2.—The Turkish delegation, which visited France for the purpose of laying before the peace conference a request that Turkey's territorial integrity be preserved intact, will leave for home in two or three days. Meanwhile the members of the delegation will be permitted to visit Paris to make purchases.

Boxing Bill Vetted.

Springfield, Ill., July 2.—Governor Lowden vetoed the boxing bill, providing for 10-round fights in Illinois under supervision of a commission of three. He held that the bill was unconstitutional as passed by the Legislature, which cannot now re-enact the measure at this session.

Plan New Montana U. S. District.

Washington, July 2.—An additional federal district for Montana would be authorized under a bill by Senator Walsh passed by the Senate.

RED BOBS CROWDS WHEAT FRONTIER 100 MILES FARTHER NORTH

Red Bobs wheat, a new variety evolved by Seager Wheeler, the wheat wizard of Canada, is expected to push the frontiers of the western Canadian wheat belt 100 miles farther north. Red Bobs seed has been widely distributed throughout the prairie provinces by the land department of the United Grain Growers, the great co-operative farmers' organization, and will be given its first real test this year.

Marquis wheat, which is generally grown throughout the Canadian West, was also the invention of Mr. Wheeler. He evolved it from Red Fife. It was a heavier yielding wheat which carried the wheat straw 100 miles farther north than Red Fife had ever grown. Red Bobs opens a week earlier than Marquis and is expected to add millions of acres to the wheat growing lands of Canada.

Its early ripening quality renders it immune from any frost but those that may chance in some freak season. It also renders it practically immune from black rust, that annual plague of the wheat fields. Rust makes its appearance in Canada in late July or early August. By this time, Red Bobs will be so near maturity as to escape damage.

Red Bobs was produced by Mr. Wheeler from carefully selected red-grained heads of White Bobs, an extremely early, beardless wheat of ordinarily of white grains. White Bobs was the result of a cross between Australian white wheat and Nepal barley. Red Bobs has not only a full round berry but remarkable strength of straw which enables it to defy any but the most destructive hail storms.

Seager Wheeler, internationally famous as a wheat grower, farms only a "selected" farm of 160 acres in the fine mixed farming country along the Canadian National line near Rosthern, Saskatchewan. He has won five championships at international exhibitions with his wheat and holds the world's wheat producing record with eighty-two bushels to the acre. His first big prize was the \$1,000 in gold offered at the New York Land show in 1911 for the best bushel of wheat grown on the continent. His prize bushel was of Marquis wheat that yielded seventy-five bushels to the acre and weighed sixty-two and a half pounds to the bushel, which was two and a half pounds more than standard weight.

GREAT PERSONAGES
COMING TO U. S.LEAGUE OF NATIONS CHIEFTAINS
PROBABLY WILL GATHER IN
WASHINGTON IN FALL.

ROYALTY IS EXPECTED, TOO

King and Queen of Belgium and the
Prince of Wales, Together With Car-
dinal Mercier, Are Expected Before
Long.

By EDWARD B. CLARK.

Washington.—The guiding men in
the membership of the League of Na-
tions probably will hold a meeting in
Washington some time next October.
No definite arrangement to this effect
has been made, but the understanding
is that the second autumn month will
witness a gathering of world notables
in our national capital.

Whether or not the chieftains of the
league are to assemble here, it is cer-
tain that Washington before long will
be visited by some of the great men
and women of earth, among them be-
ing the king and queen of Belgium,
Cardinal Mercier, and the prince of
Wales—for his conduct on the field
of battle certainly entitles this young
prince, as it entitles all others who
who have shown high courage, to be
classed among the great ones.

Washington already is preparing to
welcome royalty and royalty's rep-
resentatives. As soon as definite in-
formation comes concerning the League
of Nations meeting, the city will pre-
pare to give that gathering the proper
setting.

The forthcoming visit of the prince
of Wales perhaps is interesting in a
number of ways. The present prince
is the second one of his rank in Great
Britain to visit America. Only one
other immediate heir apparent to the
British throne ever visited this coun-
try. The prince's grandfather, who later
was King Edward VII, came to the
United States sixty years ago when
he was about the age of the present
prince, and here he had what later
day prices might call "the time of
his life."

Other Royal Visitors.

The forthcoming visit of King
George's son recalls other visits of
royalty and near royalty to the city
of Washington. It was not long ago
that the duke of Connaught, who held
the British government's chief office
in Canada, came to the United States
to pay a visit to the British embassy.
In a way his visit was to the president
of the United States, but so far as
public announcement was concerned
he was coming here simply to visit the
embassy, and incidentally to pay his
respects to the president.

The duke certainly was a democrat.
Possibly a good deal of his democracy
was put on for the occasion, but if so
it was the best counterfeit that ever
passed as the genuine thing. The
National Press club entertained the
duke in its quarters. He said that he
wanted to be treated simply as a guest
who held a ten days' card at the club,
and to a considerable extent this was
what happened, but the boys pressed
the duke into making a speech, which
he did in a vein of mixed humor and
seriousness.

Prior to the visit of the duke, Prince
Henry of Battenburg came to Wash-
ington. He is a kin to the royalty of
Great Britain. The prince is a sailor
and he came to the United States in
command of a squadron of the British
navy which put in at Annapolis.
From that city he came to Washing-
ton making his headquarters at the
British embassy. He was entertained
at the White House and at a number
of clubs of the city.

When Henry of Prussia came.
About fourteen years ago Prince
Henry of Prussia came to the United
States. Since his visit all kinds of in-

terpretations have been put on the re-
ason therefor. This government cer-
tainly laid itself out to entertain prop-
erly the prince of the royal house
which during the last two years has
been doing its best to put this coun-
try out of commission.

What war does in curious ways is
evidenced by the fact that the Amer-
ican army officer, then a major, Joseph
T. Dickmann, who was assigned by the
war department as an aide to Prince
Henry while in this country, is the
same Joseph T. Dickmann, who, as a
major general, led the American army
of occupation into Germany. It pos-
sibly would have been somewhat awk-
ward for Joseph T. if he had met
Henry, his former traveling compa-
nion, when the American troops entered
Coblenz. Henry, however, was far
away in self-imposed exile.

When the grandfather of the pre-
sent prince of Wales came to America,
also as the prince of Wales, he saw
something which his grandson will not
see. He witnessed the dizzy perfor-
mance of Blondin who crossed the gorge
of Niagara Falls on a tight rope, car-
rying a young man on his back. The
prince congratulated Blondin, but then
he turned to the young man whom
Blondin had carried across and said:
"You are the bravest young man I
ever met."

The man whom Blondin carried
across was a volunteer, willing to take
his life in his hands. His name was
Henry Coleard. Later he lived in the
city of Chicago where he became an
artist of some note. He painted the
picture of Abraham Lincoln which
hangs in the building of the Chicago
Historical society.

Locust Breeding.

Climate has nothing to do with the
appearance of the locust. When the
female deposits her eggs in a 1902
and the young locust starts to mature
in the ground under that tree, blue is
the factor. In this respect the locust is
enormous. If for nothing else, because
heat and cold are in general a wonder-
ful agency in all life. But this may be
due to some degree to the fact that
the locust burrows deep and the tem-
perature in the habitat it has selected
for its long and slow growth to matu-
rity in the shell or sheath which in-
closes it is somewhat like that in a
cool mine, much the same the year
around. It is the breeding season of
the adult, and not the warmth of
spring 17 years later, which seems
to decide the date of emergence from
the soil under the twig of over-decid-
tion.

REFRIGERATORS

There is real comfort in having one of our refrigerators "on duty"
in your household during the hot summer months, but it also
means more than that to have one in operation, it means you are
practicing real economy.

Our Refrigerators

Are so scientifically constructed that they produce a cold tem-
perature. Everything remains crisp and fresh, while the tempera-
ture remains unusually cool, the quantity of ice needed to produce
this is unusually small.

For genuine satisfaction and all-around serviceability we rec-
ommend our White Mountain or Northland Refrigerators.

Prices Range From \$21.50 to \$45.00

Farmers' Exchanges Successful.

County farm bureaus in New Hampshire are conducting exchanges with excellent results. One hundred and twenty-five farmers attended a meeting to organize an exchange in Belknap county and in 15 minutes raised \$2,300 of the \$3,000 capital needed. The members of the Grafton county bureau will purchase 50 tons of limestone this year through their exchange. Hillsboro farmers have pooled orders for fertilizers and have placed them with dealers. Merrimack county farmers in four weeks unloaded 5 cars of grain and 300 tons of lime. The February business of the exchange in Rockingham county amounted to \$8,800. Stratford county farmers have formed a co-operative grain company and purchased a mill. The capital stock is \$15,000 in shares at \$25 each. In all, 40 tons of fertilizers and 60 tons of limestone have been ordered.

ANNOYING KIDNEY ILLS

Make Life Miserable for Many Brainerd People

There's nothing more annoying than kidney weakness or inability to properly control the kidney secretions. Night and day alike, the sufferer is tormented and what with the burning and stinging, the attendant backache, headache, and dizziness, life is indeed a burden. Doan's Kidney Pills have given peace and comfort to many Brainerd people. Profit by this Brainerd resident's experience.

Peter Paulson, 402 Oak St., W., says: "About a year ago I was lifting some heavy bags and slipped and wrenched my back. For several days I was all in and could hardly attend to my work. It seemed to cause an irregular action of my kidneys. I had no energy to do anything, felt tired all the time and suffered from backache. I tried Doan's Kidney Pills and they soon relieved me of my trouble. I have been free from backache and kidney trouble ever since."

Price 60c, at all dealers. Don't simply ask for a kidney remedy—get Doan's Kidney Pills—the same that Mr. Paulson had, Foster-Milburn Co., Mfrs., Buffalo, N. Y.

BAND CONCERT AT GREGORY PARK

Splendid Program Offered, Classical and Popular, at the Park This Evening

DIRECTION OF R. H. REHL

"Star Spangled Banner" Closes the Program—Many Automobile Parties Planned

The Brainerd City band, under the direction of Richard H. Rehl, plays at Gregory park this evening. Mr. Rehl offers a splendid program, classical and popular, one in which every lover of music, whether he reads music by sight or just whistles for fun, will find something to delight himself.

Many automobile parties are being formed to attend the concert. Tourists staying over in Brainerd at the Ransford, Harrison and Ideal hotels will all attend.

The band was given an ovation when it played at Royalton. Brainerd's municipal band has been engaged to play at Backus and flocks of summer outers will be in attendance there on the Fourth.

Here is the program for Gregory park tonight:

"War March of the Priests" from "Athalia".....F. Mendelssohn
Overture, "Lustspiel".....Keler-Bela
A Summer Idyl, "Among the Roses".....M. L. Lake
Selection, "The Isle O' Dreams".....Ernest Ball
(From Chauncey Olcott's production)
Humoreske.....Dvorak-Lampe
Selection from "Marta".....W. V. Wallace
Overture, Op. 27.....Prochinski
March.....Selected
"Star Spangled Banner."

STATISTICS OF CLASS OF 1919

(Dorothy Carmichael, Erle Tornstrom)
We, the Senior class of 1919, believe in carrying on. Our worthy predecessors, the class of 1918, inaugurated the plan of having statistics and we believe in carrying on the good work. All of the members of the class were given questions and their answers are as follows:

The number of students is fifty-two. All seemed to know their names and some gave their middle name so they could not be mistaken.

Ancestry

All people have ancestors and many of the seniors traced their predecessors back to great people. A few

traced them to the first man and woman, but some believed Noah was far enough back. Many liked the Darwinian Theory. Grace Hayes traced hers to the Mayflower and some said their ancestors were here to greet the people on the Mayflower. Some others did not know who theirs were. Among the most famous ancestors are: Robert Bruce, Allen Anderson (champion world juggler, years ago), Napoleon Bonaparte, Alexander the Great, Cleopatra, St. Peter, Caesar, Miles Standish and Sir Francis Drake.

Secret Societies.

Every girl belongs to the Order of Face Powder. The boys are all old members of the Club for Loafers. Among other societies are the Southern & Eastern Stars. Many members of the class belonged to such societies as "Knockers Club," Henry Nelson is the happiest of the Happy Hustlers, Clifford Stoner is president of the famous Gum Chewing Club and Esther Fricker vice president. A few other clubs are: I. H. W. & N. D. C. T. D. A. and last but not least, I. H. A. W. T. B. I. L.

General Statistics

Class Beauty—Hazel Worden with Dorothy Carmichael a very close second.

The handsomest—Jennings Warner for he has a wonderful slideback. The meekest—Ruth Wilson.

The laziest—Gordon Myrick with George Hagberg a close second.

Greatest social light—Mildred O'Brien, she has a seat all her own at the Best theatre and dines very often at the Ideal.

Most popular girl—Hazel Robinson because of her style.

Most popular boy—Of course, Admiral Grice alias Henry Nelson. Second place is a tie between the captain of the basketball team and the president.

Classiest and neatest—Eva Peterson with Anne Wilson coming in for second honors.

Best athlete—Our captain, Henry Cunningham, who never let the throat of Carleton fade.

Nerviest—Alice Anderson, she has so much nerve she'll tell you so.

The two having the worst case are Alice Anderson and Gordon Myrick. They far outstripped their opponents in the election—Henry Cunningham and Lillian Welliver.

Brightest boy—John Thabes, who is a wonder in Virgil Class and a rival of Ring Lardner.

Brightest girls—Kathleen Weisz and Mildred O'Brien run neck and neck.

Best natured—Karin Planta. She hasn't time to be otherwise.

Most religious—Mabel Olson. Wittiest—Ray Hannaway. She laughs at her own jokes while the others are looking for the point.

Class gossip—Dorothy Carmichael. She needs to be for she's Sec-Treas. and has to find out if they need to spend so much money on movies.

Most business-like—Arthur Anderson. He will make Brainerd famous with his manipulations of stocks in Wall street.

Best gum chewer—Clifford Stoner, who has a fresh stick for every class. Witness the decorations on the hall floor.

Most quiet person—Anna Benson. You hardly know she's there.

Noisiest—Ester Fricker whose drident voice proclaims her from afar.

Biggest ad best bluffer—George Lind. Give him a line and he'll make it a book. He's also the class philosopher. What if he does get a zero? It'll be all the same a hundred years from now.

Man-hater—Sara Reimstad. She hates the very sight of man.

Woman-hater—Arthur Reid. He's sworn off going with the fair sex.

A flowery speaker—Edna Young. The words flow from her lips in unending streams of melodious murmurs.

Most likely to go to sleep in class—Irma Haake. She may doze off any moment.

Class "Dude"—Thomas Johnson. He always looks as if he came out of a band-box.

Most likely to succeed—Henry Bakkila. The papers will sing his praise from coast to coast.

Best dancer among the boys—Harold Betzold.

Best dancer among the girls—Mildred O'Brien and Anne Wilson.

Fastest talker—Elsie Schwarzkopf. The president's stenographer couldn't get her speech.

Most industrious—Dagmar Olsen. You'll find her always studying.

Class booster—Erle Tornstrom, who should be ex-officio.

Most beautiful eyes—Vivian Ferran. They gleam like diamonds.

Class giggler—Agnes Nelson. She's always giggling.

Least studious—Averil Jones. She gets her lessons by looking at the cover of her book.

A number of the boys like Ethel

MEET AND TREAT AT OUR FOUNTAIN

Thomas as the best girl.

Education

Reasons for attending H. S.

There are many reasons for attending H. S. namely, to get out of work; to have a good time; nothing else to do. The normals attend because they expect to become teachers; others to get what they can; some to pass away the time; a very few to fill up the vacant places in the head; some acknowledged it was parental persuasion; some have the high aims of graduating; others said it was for the good of the school. Sad to say, there are a few in the class who don't know yet why they attend H. S.

There is a great variety in the choice of schools. Of course, Brainerd was first, Harvard received the next highest number of votes, among others were: Fort Ripley H. S.; School of Happy Fellows; Stout Institute; any medical school; U. of M.; Minnesota Law School; Alexandria H. S.; St. Cloud H. S. Gerda Peterson will continue her education in the kindergarten, next winter, a few would rather attend the Reform School. Mae Clemenger will take a course of domestic science in her mother's kitchen, Hulda Wang will take a post-graduate course at the arrows grammar course, Albert Nelson expects to learn much in school, but more in the school of experience.

Our hardest and maybe worst subjects are: Physics, Modern History, Chemistry, Caesar, English III and IV, also Virgil. Henry Bakkila finds all his subjects easy. Some thought Music and evolution were very hard.

Our easiest and best subjects: Alice likes Senior Meetings best. Among others are: economy, physiology, English IV. George Lind found Caesar easiest because he didn't have to dot it himself, he rode on a pony.

Music

Every really human being likes music. Voted is the choice of songs among the members of the class. Many like the Glee Club song, "O! For the Wings of a Dove." Among the other popular songs are "O! Frenchy," "O! Johnny," "Many Loves Love," "Love's Old Sweet Song." Gerda Peterson shows a liking for American songs, she chooses "Yankee Doodle" as her favorite. Other good songs are, "Annie Lene Syne" and "Meow."

General.

Many girls confessed using powder such as talcum, washing, tooth, scouring and gunpowder. One girl said she used calcium powder because it was cheap and more effective. She got the idea from awe-struck admiration of Lena Fenske.

Philosophers are abundant in the class. The normal girls were all for "Votes For Women." Almost all of the class believed in "Eat, Drink and be Merry for Tomorrow You May Die."

Mr. Scherrick is not as all-seeing as many think for most of the seniors can chew gum when he is looking. Myrtle Rosenberg thought it would be a dangerous thing to try so she hasn't risked it yet. The average consumption of gum per senior per day is about two sticks due to the fact that some consume enormous quantities.

Florence Greger's greatest amusement is to watch Harold Betzold chew gum. Many others would rather dance. One girl would rather sit in the 12th row in the movies and count the bald heads. Others prefer sports such as baseball and tennis.

All persons who had tasted ginger ale did not think it intoxicating. The thoughts of the senior class on the Kaiser cannot be expressed in the English language. Many did not have time to think of that thing.

Like and Dislikes.

"Sweets to the sweet." All girls in the class liked ice cream, candy and somebody to take them to the movies. The boys like high marks but do not care to work for them. Some few students like to study. One girl prefers two periods of chemistry. The girls dislike the ban on dancing in H. S. A few on each side are

THE BIG SPLASH IS ON NOW AT VIRGINIA BEACH

Can you do a black-flopper with hands clasped behind your neck?
Can you do a shallow dip into three feet of water from a four-foot piling?
Can you tread with poise and firmness on coarse cinders and sharp gravel?
Can you lie three hours bare-

backed on a plank in weather like this and not cook to the middle?
Can you scale a 75-foot 75 per cent embankment in 10 seconds flat and two and a half jumps ahead of an athletic policeman and don all your clothing en route?
Learn to swim.
You may some day save life, yours or another's.

Take a trip to Virginia Beach! It's the finest swimming sand on the Atlantic, just a nice street car ride from Norfolk. Not so hot as Palm Beach; no ice in August, like way up north. Just right. And in Virginia, where booze is history. Bathing, fishing, boating makes a wholesome program there. The splash is on.

The Ford Motor Company have instructed us to sell the genuine Ford Parts to any and every reliable Garage who will pledge their use in the repair of Ford cars. The genuine Ford Parts are absolutely necessary to the owner of Ford cars that he may get full service from his car. We carry them and so, we hope, in a short time will every reliable Garage. We solicit your service business because we have the Ford Methods, the Ford Parts, the Ford Mechanics and the Ford prices. Incidentally would be glad to get your order for one or more Ford cars.

FELICITATIONS.

The Dispatch, although late, hastens to extend its felicitations to a June bride, Mrs. Louise A. Dare, who for two years edited the Walker Pilot and whose witty, brilliant paragraphs have received the widest notice, was married in June to C. L. Haxton of St. Paul. They will reside in their new home at 1549 Grantham street, St. Anthony Park, designed and built during the past few months by Mr. Haxton.

TO ENFORCE WARTIME LAW

House Committee Will Frame Bill Defining Intoxicants.

Washington, July 2.—The house judiciary committee probably will meet next Monday to report out a straight bill for enforcement of wartime prohibition so as to stop the sale of 2½ per cent beer.

This plan virtually was agreed upon after leaders had decided to defer consideration of all prohibition legislation until next week.

House leaders said that if the bill were reported by the committee Monday or Tuesday it would be passed without extended debate and sent to the senate. At best they said 2.75 per cent beer would be on the market less than two weeks.

TO SPEAK ON DAY OF ARRIVAL

President Will Deliver Address in New York After Landing.

Washington, July 2.—President Wilson will speak in New York immediately after his arrival there, it was learned at the White House. His speech will be delivered at the Metropolitan Opera house or at Carnegie hall. It is believed his address will mark the beginning of his campaign for ratification of the League of Nations and the peace treaty, but it is not considered likely he will give any vital information on the peace conference accomplishments, such as he is expected to give the senate when he appears before it.

NINE KILLED IN WRECK

Chicago Bound Trains in Collision at Dunkirk, N. Y.

Fast Express Plows Into Rear Coach of Passenger Train Standing at Station.

Dunkirk, N. Y., July 2.—At least nine persons were killed and more than forty injured in a rear end collision between the second section of train No. 41 and train No. 7, known as the "Westerner," here.

All the fatalities occurred in the first passenger car of the rear train, the "Westerner," when its engine buckled back through a wooden baggage car. Eight bodies were taken from the wreckage and rescuers clearing the debris were working toward what they believed to be two additional bodies.

Twenty persons, some seriously injured, were taken to the Brooks Memorial hospital. Others less severely hurt proceeded on their journey after receiving surgical attention at a temporary dressing station near the wreck.

Both trains left Buffalo at one minute past midnight, train No. 41 having the right of way and both sections were ahead of train No. 7. The second section stopped here to discharge passengers and was delayed in getting under way again by an overheated journal. Train No. 1 is a thru express.

Witnesses of the accident say that when the engine of No. 7 plowed into the rear of the standing cars its speed had diminished only slightly. The rear coach was telescoped by No. 7's engine and three others were smashed.

A flagman endeavored to stop train No. 7, which was following. The air brakes on the second train failed to hold, apparently. The flagman hurled his lantern at the engine cab as the locomotive dashed by.

Train No. 41 left New York at 1 p. m. and train No. 7 left at 2 p. m. Both were bound for Chicago.

Change in Rail Directorate.

Washington, July 2.—J. H. Hustis, district director of railroads for New England, resigned to resume his work as receiver for the Boston & Maine. Director General Ihms appointed as his successor P. R. Todd, now assistant director.

MAY ARRIVE NEXT TUESDAY

President Expected to Reach New York on That Day.

Aboard U. S. S. George Washington, July 2.—Averaging 16½ knots an hour through smooth seas, the George Washington is expected to reach New York Tuesday, July 8. If advantage can be taken of the morning tide, the vessel will dock before noon that day. Otherwise it will be delayed until about 2 p. m. The president is varying study of executive papers with tours of the deck.

Back From Africa With Phonographic Records of Monkey Talk in the Jungles

To prove to the world that the monkey tribes have a language of their own and that different species have varying dialects Prof. Richard Lynch Garner has brought back from the Congo district phonographic records of their chatter. He says a lot of the stories published about his work are foolish, but that his records, taken during two and a half years in the jungles, will help very much in determining just what monkey chatter means. He brought with him 3,000 boxes of valuable specimens of Congo animals.

PRESIDENT'S TOUR WILL COST MUCH

SPEAKING TRIP MAY BE SHORTENED BECAUSE OF HEAVY TRAVELING EXPENSES.

\$25,000 FUND NOT ENOUGH

Formerly Our Chief Executives Always Accepted Transportation From the Railways, but That Was Changed by Colonel Roosevelt.

By EDWARD B. CLARK.

Washington.—President Wilson is to stump the country in behalf of the covenant of the League of Nations. It has not yet been definitely decided, but the understanding is that some senatorial opponents of the league will take the field in an attempt to offset the president's arguments.

It has been intimated that it will be impossible for the president to make as long and as wide a journey as he might wish because of the necessary expense which attaches to travel of this kind.

There is at the disposal of the president of the United States each year \$25,000 to be used for traveling expenses. This amount becomes available on July 1 of each succeeding year, but it is not sufficient to cover the traveling expenses of a president who wishes to talk to the people, or to travel on other official errands within the borders of the United States.

All presidents have found it necessary—and their decision in the matter apparently has been concurred in by the people—to take with them official parties, mainly composed of cabinet officers.

Will Use Up the Entire Fund.

At times it has been necessary to charter a special train for the presidential party, but always it has been necessary to have a special car. Every president who travels must take with him secret service men, stenographers and typewriters. It always has cost a good deal to travel and in these days it costs more. The forthcoming trip of the president of the United States will use up every cent of the appropriation for such purposes and if the journey goes to the limit which the president presumably would like to fix, he will be compelled to pay a considerable sum out of his own pocket to make the ends meet.

In the days up to the time that Theodore Roosevelt left the White House the presidents of the United States were compelled either to accept the courtesy of the railroads or to pay for their official trips out of their pockets. There always has been a demand from the people that the presidents of the United States occasionally should meet them in their homes. Every president since railroads became a fact has felt that he must meet this demand. The result was that many of them used up a considerable part of their salaries in the payment of bills to railroads and to hotels.

It came to be recognized as proper, through sheer force of circumstances, that presidents of the United States should allow railroad companies to furnish them with transportation. This went against the grain of all the presidents, but virtually every one of them

felt compelled to accept at least transportation from the railroads. The other expenses of the trip they met out of their personal purses.

Changed by Colonel Roosevelt.

When Theodore Roosevelt was president he came to the conclusion that the situation had become impossible. When he went on hunting trips to the West, although he was to fulfill official engagements going and coming, he always paid all the expenses, but he was compelled at times to accept the hospitality of the railroads. Thinking that this state of affairs should end he wrote a communication to congress urging that an appropriation be made to cover the legitimate traveling expenses of the president of the United States and his official advisers traveling with him when he was on business connected with the public welfare.

In order that there might be no criticism of his request from the point of view of those who would say that he was trying to make the people pay his personal bills, President Roosevelt asked that the appropriation for traveling expenses for the chief magistrate should not be made available until after he left office. So it was that President Taft became the first beneficiary of the appropriation of \$25,000 a year for traveling expenses.

The wonder is if the people of the United States know that the president, under the income tax law, has to pay more than one-third of his salary into Uncle Sam's treasury. Income taxation hits the president hard. The understanding is that he has to turn back to the treasury between twenty-five and thirty-five thousand dollars of the amount which the government grants him yearly as a salary. Taking this fact into consideration, it readily can be understood that it is almost impossible for a president of the United States today to pay the necessary travel bills, even with the \$25,000 allowance which is granted him by congress.

It has cost all presidents much money to do the necessary official entertaining at the White House. During the last four years President Wilson has escaped some of this expense because properly, with war on in the world, there has been little entertaining at the executive mansion.

Joyousness.

How should it be otherwise? I can hear a melancholy man, but never a melancholy child. Into whatever quagmire the former sinks, he may raise his eyes either to the realm of reason or to that of hope; but the little child sinks and perishes in a single black poison-drop of the present time. Only imagine a child conducted to the scaffold—Cupid in a German coffin—or fancy a butterfly crawling like a caterpillar with his four wings pulled off, and you will feel what I mean.—Oliver Wendell Holmes.

Check by Growl.

"By taking celo-celery each morning you will wash all poisons from stomach, leaving it pure and sweet, with rosy cheeks."—Dudley (England) Herald.

A Common Sense Cure

Don't suffer from biliousness, sick headache, sour stomach, gas, bloating, or other results of indigestion. Foley Cathartic Tablets clear the stomach and bowels, enliven the liver, and have a good tonic effect on the whole intestinal tract. They relieve the heavy feeling so distressing to stout persons. H. P. Dunn. mwf

AMUSEMENTS

At the Best Tomorrow

The romantic aspects of war are emphasized in "The Mystery Girl," the Paramount picture in which Ethel Clayton is starred and which will be shown at the Best theatre tomorrow. From a story by George Barr McCutcheon, who is known as one of America's most popular novelists, this story is said to give Miss Clayton a vehicle admirably suited to her talents.

Like so many of Mr. McCutcheon's with a mythical kingdom. But the stories "The Mystery Girl" has to do locales are realistic, being the west front in France and the coast of Maine in this country.

Ethel Clayton is introduced as the Countess "Ted," alias 477, a motor ambulance driver in France. She and her uncle, Prince Sebastian, the ruler of Lurania, have been driven from their country by the Germans. Prince Sebastian goes to Green Fanny, Maine, and wires for his niece to join him there. At the front she has been seen by Captain Tom Barnes, U. S. A., who is ordered home on leave and who sees the Princess on the steamer again and falls in love with her. She is pursued by enemies and in an exciting series of adventures in this country, Captain Barnes assists her and wins her love.

Miss Clayton is said to make an adorable Princess Ted, and her always artistic emotional acting makes the character a living figure. Henry Woodward is Captain Barnes and other important members of the cast are Clarence Burton, Winter Hall, Maym Kelso and J. Parks Jones.

Marion Fairfax wrote the scenario of "The Mystery Girl" and William C. de Millie directed it. Charles Schoenbaum was the photographer and John Browne assisted in the direction.

"The Masquerader"

Lionel Belmore who plays the role of Brock in support of Guy Bates Post in "The Masquerader," came to this country first in support of Lily Langtry. He then returned to London where he secured an engagement with Henry Irving and eventually became stage manager for that great actor. He has been in America for many years now and appeared in support of the great players on our stage. When Mr. Post comes to the Park theatre for an engagement limited to one night only, Friday, July 4, Mr. Belmore will be seen in one of the finest pieces of acting he has ever done.

Gipsy Language.

The language of the Gipsies, Romany, is said to be Hindoo dialect derived from Sanskrit. Ethnologists pretty well agree that the Gipsies are descendants of an obscure Hindoo tribe. The popular belief that Gipsies are descendants of the Egyptians has no other basis than the similarity of the two words. The word "Gipsy" as a matter of fact, is from the Bohemian and means "vagabond." The first Gipsies appeared in England early in the sixteenth century, but were found in eastern Europe at least two centuries earlier. They are now scattered all over the world.

\$100 Reward, \$100

The readers of this paper will be pleased to learn that there is at least one dreaded disease that science has been able to cure in all its stages and that is catarrh. Catarrh being greatly influenced by constitutional conditions requires constitutional treatment. Hall's Catarrh Medicine is taken internally and acts thru the blood on the mucous surfaces of the system thereby destroying the foundation of the disease, giving the patient strength by building up the constitution and assisting nature in doing its work. The proprietors have so much faith in the curative powers of Hall's Catarrh Medicine that they offer One Hundred Dollars for any case that it fails to cure. Send for list of testimonials.

BARNES WILD ANIMAL CIRCUS

Coming to Brainerd Tomorrow on Northern Pacific Line, Big Train Loaded With Attractions

MONSTER STREET PARADE

Two Shows, One Afternoon and One Evening—Educational, Instructive, Amusing

The Al. G. Barnes big 4-ring wild animal circus is due to arrive here tomorrow over the Northern Pacific, in the early morning hours according to Thos. Francis Heney, representative of the show.

A more magnificent and educational spectacle, could not be conceived than one picturing in circus pomp and oriental splendor the great all over the world assemblage, 1,200 animals in dazzling setting of gold and iridescent jewels, spearmen and shieldmen in their nature dress of the tangled jungleland, princes and princesses exploiting a wealth of silks, satins and brilliant plumage, riding and driving nature's noblest beasts; over 600 people feature in this triumphant march of the ages, awed by the magnificence of this ex-

King of the Forest at Barnes Wild Animal Circus July 3.

traordinary picture, scenes and kaleidoscopic sequence, audiences gaze upon realities that surpass fancy's fondest dreams.

Eyes are blinded by the blaze of gold and precious stones. Mysterious people and exploitation of the mastery of men in conquering and commanding the animal world. The knowledge gleaned through years of careful research by our most brilliant men, mysteries held fast in nature's holds are here set forth. Overwhelming in its tremendousness, made impressive by its brilliancy, say with its music, sublime in the poetry of it, this great compelling masterpiece of animal history and animal psychology is placed before you as an open book, so simplified that the merest child cannot help but receive the great lesson it beholds. Every one of these 1200 animals will be seen in the 110 feature program that follows, doing the most intricate feats of juggling, balancing, horseback riding, diving and tumbling.

The most amazing array of educated animals ever exhibited. The aristocracy of speechless world in feats that thrill and dumbfound all with the wonder of it.

There will be a two mile long street parade leaving the show grounds promptly at 10:30 A. M. Doors to the big show open promptly at 1 and 7 P. M. Big show starts at 2 and 8 P. M., allowing the visitors one hour to view the mammoth menagerie, and listen to a 40-piece military free concert band, and get acquainted with the animal actors.

NOTICE

Bids for School Building in West Brainerd

Sealed proposals will be received at the office of the Secretary of the Board of Education of the Brainerd School District, South Sixth street, Brainerd, Minn., until seven p. m. (7 p. m.) Thursday, July the 10th, 1919 for the erection and completion of a one room school building in West Brainerd, Minn.

Bids must be accompanied by a certified check for four per cent (4%) of the amount of the bid, payable to Archie Purdy, treasurer, which check will be returned when the building contract is executed, or when said School Board does not accept the bid. The School Board reserves the right to reject any or all bids.

Copies of plans and specifications of this building may be seen at the office of the Secretary, Louis F. Hohman.

By order of the Committee on Buildings, Grounds and Janitors.
LOUIS F. HOHMAN, Secretary.

ARE DOUBTFUL OVER SITUATION

Little Falls Issued a Dozen or More Saloon Licenses, June 30 to July 1, 1920

NO LIQUOR IS BEING SOLD NOW

Several Have Decided to Sell Soft Drinks for a While at Least Before Closing Doors

The situation at Little Falls regarding the saloon business was an uncertain one for a period. A dozen or more made application for saloon licenses from June 30, 1919 to July 1, 1920, and they were regularly published in the official paper before July.

Then came the president's proclamation, the bone-dry amendment of the state is in effect and the door closed on the saloon business.

Several have decided to sell soft drinks for a period, while others will close up for good. At present, during the period of uncertainty as to what the next few months will bring forth regarding reopening, says the Little Falls Transcript, the majority feel that no definite statement can be made.

ALFAFA MAKES MONEY FOR FARMER

Alfalfa Planted in Crow Wing County Has Withstood Climatic Changes of all Kinds

P. B. NETTLETON ON SUBJECT

Alfalfa in Nebraska Has Quickly Made Land There Jump From \$15 to \$75 an Acre

To the Dispatch:

As the subject of alfalfa is important to the farmers of this county and the proper cultivation thereof equally important, I enclose a letter recently received from Col. Freeman Thorp that suggests where some of our farmers may have failed to get proper results.

The little patch I planted at the left of the courthouse entrance in 1915 was planted in drills as recommended by Col. Thorp that has stood the test of cold winters without attention and testifies to its hardiness. That was inoculated and the genuine Grimm seed.

Alfalfa in Nebraska has made their \$15 lands worth \$75 per acre. It may do the same here if properly handled.

Col. Freeman Thorp wrote as follows:

"As it was at your instigation that alfalfa seed was sent out by the Chamber of Commerce to various farmers to introduce the growth of alfalfa in this region, I want to tell you the result so far as I am concerned. I planted some of the seed sent me the first year, some the second year and some the third year, in each case it was a success as any one may see it at my place at Hubert.

"I had previously tried the ordinary method of sowing broadcast with and without a cover crop, in both cases getting a beautiful stand but losing it the second year, and my belief is that on the light sandy soil of Northern Minnesota farmers will generally fail with alfalfa sown broadcast, chiefly for the reason that the crown of each plant is too near the surface and consequently too much exposed to the long continued freezing of our winters, if snow does not come early and stay deep all winter.

"I planted the seed sent me by making trenches six inches deep far enough apart to admit cultivation, about 28 inches, sowing the seed in the bottom of the trench with an ordinary garden hand drill as fast as a person can walk, running straight in the trench not following its crooks. When the alfalfa is three inches high begin to cultivate. By winter the crown of the alfalfa will be four inches under ground. Cultivate once the next spring and once after each cutting. Result, no plants killed, all plants stronger and better each year. Three cuttings of a ton each, worth as much as equal weight of bran for feeding.

"If the sending out of alfalfa seed to a considerable number of farmers accomplished nothing more than the discovery of this method of growing alfalfa with certainty on the soil and in the climate of Northern Minnesota, it would seem to have been well directed effort, conditioned only that we have now or at any future time a county agricultural agent that dares to utilize the discovery in spite of the opposition of the Department of Agriculture and Agricultural Colleges to anything new in crop production, just as they have refused to recognize in any way the discovery that the peat or black muck everywhere abundant in Northern Minnesota is when bacterized as any farmer easily can, is the best fertilizer in the world."

ROLL OF HONOR

Private Ray E. Davis of Fort Ripley arrived home Saturday. He was with Co. A, 7th Regulars, U. S. Engineers, 5th Division of regulars and was in active service overseas at the battles of St. Mihiel, Argonne Woods and Meuse River. He enlisted October, 1917, and had been on the front following training. He has many war trophies which he brought home with him from Luxembourg. One of these is a German shell which killed one of his company. He associated with Blackie Clark and Louis Berggreen, both of Brainerd, while in Luxembourg, and whom he left in fine spirits and health. Private Davis thinks there is no country can compare with the good old U. S. A. and he is very glad to be home with his many friends and relatives.

Earl O'Brien, who returned recently from war service, saw England, Ireland, Wales and Scotland on his journey. He was in the accounting department handling supplies.

Capt. C. D. Peacock of the 311th Engineers has been mustered out at Camp Dix and was in Chicago today. He is expected in Brainerd soon.

NEW BAKERY IS STARTED IN CITY

Frank W. Breneman, for Five Years With Ericsson Brothers, Embarks in Business

LOCATED AT 608 LAUREL STREET

Open to Public July 3—Will Serve Appetizing Lunches New Equipment Installed

Frank W. Breneman, an experienced baker who was for five years in the employ of Ericsson Brothers has started a bakery business at 608 Laurel street and will be open to the public on July 3.

New equipment of all kinds has been installed and Mr. Breneman promises a superior article of bread, cakes, pies, biscuits, etc. The triple deck oven is one of the best made.

The location at 608 Laurel street is central and it has been greatly improved by owner of building and lessee. Mr. Breneman has had it nicely decorated and furnished.

Congdon & Bowen did the painting, C. B. Bowley built considerable of the fixtures. There is ample room for tables and Mr. Breneman promises a revelation to Brainerd people in the way of dairy and bakery lunches.

Friends are assured that Mr. Breneman will do well and that he will have a good trade.

OFFICER NOT DEAD OR INJURED

Special Officer E. G. Boyd, head of the Indian department with headquarters in Brainerd, indignantly denied that he had been killed or injured in an alleged battle with liquor law violators on the Cuyuna iron range.

He had no idea how the report started and said that seldom or ever was it necessary for him to use force in making an arrest.

Business Hours at the Postoffice, Friday, Fourth of July

The general delivery and stamp windows will be open in the morning from 8 until 9 o'clock, during which hour the usual business of these windows will be transacted. Patrons who have registry or parcel-post business for dispatch or receipt should present this business at these windows at this above hour. No delivery of mail will be made by either the city or rural carriers but patrons who receive their mail by carriers may call for it at the office at the above hour passing thru the work-room of the office to their respective carrier as has been the custom. The usual dispatch and distribution of mails will be made and the lobby of the office will be open during the day. No money-order business will be transacted.

H. P. DUNN, Postmaster.

Samuel L. Kramer, Box 95, Sellersville, Pa., writes: "I had kidney trouble for two years and had a terrible backache. That is all gone now after using Foley Kidney Pills and I feel well again." Foley Kidney Pills get results quickly and are tonic in their healing and soothing effect. H. P. Dunn. mwf

STORK'S VISIT TO SCOTLAND

Record of Bird's Appearance in 1416 May Be Found in Chronicles of the Country.

The white stork of the continent of Europe, which is encouraged in most, and even protected in some, of the countries to which it resorts to breed, and round which much story and legend have gathered, has been known for centuries to be an occasional visitor to the British Isles, chiefly to Norfolk, but very rarely to Scotland, though it has never been known to nest or even attempt to do so in Britain.

However, a record of its having nested in Scotland appears in Goodall's edition of the "Scotchichonicon." This work was begun by John Fordun, who died about 1384, and was continued by Walter Bower, the abbot of Inchcolm. It is in Bower's chronicles for 1416 that the story appears. The translation runs thus:

"In the year of our Lord, fourteen hundred and sixteen, there died on the morrow of the birth of St. John the Baptist, Master James Bisset, prior of St. Andrew's. In this same year, a pair of storks came to Scotland and nested on top of the church of St. Giles of Edinburgh and dwelt there throughout a season of the year; but to what place they flew away thereafter no one knows."

Commenting on this, Lord Laigle Clarke says: "The church of St. Giles, on which the storks nested, was a new stone edifice commenced in 1357, to replace a former church destroyed in 1355, and some of it doubtless forms part of the cathedral of today."

HOUSES RECESS UNTIL TUESDAY

Congress Adjourns After Finishing Consideration of Appropriation Bills.

FUNDS ARE AVAILABLE

More Than \$5,000,000,000 Has Been Provided for Use of Government Departments During the Fiscal Year Just Started.

Washington, July 2.—Both houses of congress have recessed until next Tuesday, July 8, after passing all supply bills needed by government agencies for the new fiscal year.

Success crowned the efforts of Republican leaders to complete the necessary appropriation measures, but only after hours of delay.

The final bill, the army measure, carrying \$775,000,000; the sundry civil bill, carrying \$605,000,000; the District of Columbia's annual budget of \$15,000,000 and a deficiency measure of \$25,000,000 all were completed and sent to the Whitehouse. President Wilson will be unable to approve the bills until he returns, but no embarrassment to government departments owing to delay in making funds available is expected.

Five Billions Appropriated.
With enactment of the final bills, including measures passed at the last session of congress, more than \$5,000,000,000 has been appropriated for Federal needs during the new year. Congress also has cancelled more than \$15,000,000 of war appropriation previously authorized.

The recess of congress was accomplished after many delays with controversies centered upon the sundry civil and army measures. The recess gives congress a rest over July Fourth and when it returns it is expected that President Wilson will submit the treaty negotiated with Germany.

Legislation for more strict enforcement of wartime prohibition also is to be taken up upon reconvening. Objection to the adjournment was raised in the house by Minority Floor Leader Clark, who demanded a record vote on the motion.

The vote in favor of the recess was 132 to 89, while only half a dozen senators were in their seats when the session ended in the upper branch.

The army bill as adopted represents a decrease of \$114,000,000 from the amount carried in the senate bill, and provides for maintenance of an average army of 325,000 men during the fiscal year.

She Feels Younger and Stronger

Middle-aged and older persons are apt to suffer from overworked or weakened kidneys and bladder. Mrs. Warren Dyer, Arkport, N. Y., writes: "I used Foley Kidney Pills for weak kidneys and pains in my back, and they gave me relief. After taking Foley Kidney Pills I feel younger and stronger." H. P. Dunn. mwf

Seek to Retain Old Friends.

TO RESTORE FAMOUS PARK

Bowling Green, With Its Ancient Fence, Will Again Become Show-place of New York.

Modern New York will probably better appreciate its Bowling Green fence, recovered and restored to view by the Broadway association, for the incidental publicity of the restoration. When the fence was new, Bowling Green was an important part of the town, and the New Yorkers of 1770 considered it well worth while to import the fence from England and pay \$800 for it. One is reminded that, shortly before the fence was put up, the loyal citizens, grateful for the repeal of the Stamp act, had adorned Bowling Green with a leaden equestrian statue of George III. For a while fence and statue stood there together; then the Revolution came, and the "Liberty Boys" pulled the statue from its pedestal. The fence remained till 1914, minus the gilt crowns that the "Liberty Boys" had hammered off the tops of the fence posts, but the famous park, lost in the growing city, was gradually neglected. When the fence returns to it, the park will be replanted with shrubbery, and Bowling Green made as much as possible like its historic self.

EMULATION COUNTS IN LIFE

Woman Evangelist Was Evidently Aware of the Fact, and Turned It to Advantage.

In an Indiana city, not long ago, a woman evangelist held a revival meeting. She took no collections while the services were in progress, but on the final night she announced that a free will offering would be in order. Interest in the meetings had been growing and the church was crowded to capacity. The ushers, with contribution plates, started on their rounds. The evangelist said she had instructed them to say "Amen" whenever 25 cents was dropped into the plate; when 50 cents the usher was to say "Hallelujah!" and when \$1 the usher was to say "Glory hallelujah!" in a loud tone. The collection amounted to \$1,100. If there had been no emulation the total might have been small, but the evangelist knew that no person with money to give would be content with an "Amen" when a neighbor, sitting in the next pew, was acclaimed with a "Glory hallelujah!" The same principle holds good in everyday life. If one man has a fine vegetable garden it is an incentive to his neighbors. The interest women have in pretty frocks is largely due to somebody getting one and making the others desire something equally becoming. Men would care little for position if it were not for the age-old lure that makes them want a better job than the other fellow.

Without such emulation there would be nothing to drag men and women away from the commonplace things of life. There would be nothing to induce one boy to seek for the head of his class or persuade him that he should run for president later on. Many, of course, are content to have "Amen" said to their efforts in life, but more want to hear the "Glory hallelujah!"

—Indianapolis News.

SPORTS

GAMES FOR THE FOURTH IN LEAGUE

Brainerd to Play at Little Falls on Afternoon, Morning Game Here Was Canceled

TEAM PERCENTAGE IS GIVEN

Crosby and Ironton Have Two Games, Staples Will Play at Verndale in Afternoon

Games scheduled for the Fourth of July in Central Minnesota League territory, are sure of gaining the largest attendance in the history of the league. The game between Crosby and Brainerd at Brainerd June 29 drew 500.

On the Fourth Brainerd plays an afternoon game at 4 o'clock with Little Falls at Little Falls. The city has put on a big Fourth celebration. The morning game in Brainerd has been cancelled. It will be made an evening game postponed to July 17.

At Verndale a big Fourth of July celebration will witness the baseball game between Verndale and Staples. A \$200 purse will be an incentive for the teams to go the limit.

Crosby and Ironton will play two games on the Fourth, in the morning at Ironton, in the afternoon at Crosby. Crosby has staged a big Fourth celebration.

Here is the standing of league contestants to date:

Team	Won	Lost	Pct.
Crosby	5	0	1.000
Brainerd	3	2	.600
Little Falls	3	3	.500
Verndale	2	2	.500
Ironton	2	3	.400
Staples	0	5	.000

The Sunday games are Little Falls at Crosby, Brainerd at Verndale, and Ironton at Staples.

STAPLES MAY STAY IN LEAGUE

It is probable that the Staples team will decide to stay in the league and will soon put up the \$100 required as a guarantee in a few days. A new manager has been elected, a Mr. Barrett, in place of Jesse Crosse, who is unable to give his time to the work of managing the team, and has withdrawn.

Bemidji Team.

Bemidji has an all-paid team in the field this year and will start the baseball season the early part of July. The team will play three or four games a week and will arrange for a series of games with other towns throughout the state having all-paid teams. Games will also be played with nearby towns having partly paid teams.

St. Paul Team Licked

The St. Paul baseball team got licked Sunday and the St. Paul fans blamed it all on the umpire. Mayor Larry Ho, who was out of town, was also wrought up and sent in condolences and also jumped on his Hon. Mr. Umps.

DIAMOND NOTES

George Dauss and Howard Ehmke are pitching great ball for the Tigers.

Eppa Rixey, Jr., the tall left-handed pitcher, expects to be mustered out of the service soon.

Walter Golvin, Mobile first baseman, has reported to his club after service in Siberia, Russia.

Western league clubs by mail vote have decided to increase the player limit to 15 men instead of the 14 originally agreed upon.

Elmer Ponder, Pittsburgh pitcher, who has been an aviator in the army, returned from France last week and reported to Manager Bezdek.

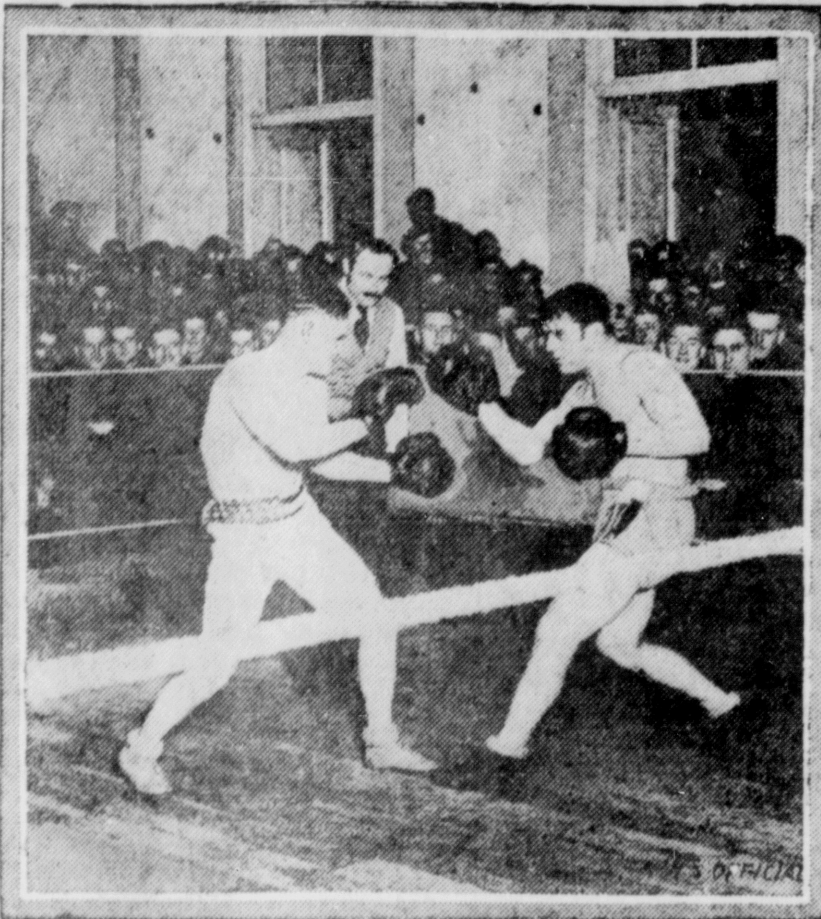

Dick Durning continues on his way. Brooklyn sent him to Louisville. Louisville sent him to Toledo and now Toledo sends him to Waterbury.

George Sisler the other day made one of the plays which made T. R. Cobb famous as a base runner, when he scored from second on an infield out. It gave his team the winning run in the tenth inning.

He Threw Away His Crutches

"Six years ago I had rheumatism so bad I was going on crutches," writes August Strandell, Sister Bay, Wis. "I tried several medicines and doctors and got no relief. Three bottles of Foley Kidney Pills cured me. I threw away my crutches." Have no equal for weak, sore, aching back, muscles or joints. H. J. Dunn. mwf

Doughboy and Poilu Boxing to Amuse Their Pals Between Bouts With the Bolsheviki

Russia does not offer much entertainment for the soldiers who have been fighting the Bolsheviki so they try to entertain themselves. This picture, taken at Archangel, shows Color-Sergeant Anthony Choike of Headquarters Company, 339th Infantry, welterweight champion of the Eighty-fifth Division, and G. Pionnier, one of the best welterweights in the French army. They met in a three-round bout, which ended in a draw. Theirs was the star bout on a program which packed a Y. M. C. A. hut. The 339th Infantry, 85th Division, originally was composed of men from Michigan and Wisconsin who were trained at Camp Custer, Michigan.

RESULTS ON THE DIAMOND

American Association.
Kansas City, 8; Minneapolis, 2.
St. Paul, 2; Milwaukee, 0.

WHO DOES *the* BUYING FOR YOUR FAMILY?

There is someone in your family who has a big responsibility.

Food to buy for the table; clothes for the children and grown-ups; new household utensils, linen, furniture, books and all the hundred and one little things for which the family income is spent.

In most families, one person does the bulk of the buying. And it is that person's job to see that the money is well spent---that you all get full value for every cent that goes out.

The success of a family depends on wise buying just as the success of a business does.

Wise buying means intelligent buying. It is necessary to have knowledge of goods and stores.

The best way to get this knowledge is by reading advertisements. They tell you what is new and good. They tell you where and when to buy to advantage.

Not only the person who does the buying but every member of the family should read advertisements. It is the duty of all the others to help the one who does the buying by pointing out advertisements of new goods and giving all the information possible as to tastes and styles and values.

Advertisements are published for your benefit. Make use of them by reading them.
